PRESS RELEASE 01/2010

**Meier Solar Solutions: Quality control awarded ISO 9001:2008 certification**

**Bocholt, 6th January 2010.** Meier Solar Solutions GmbH has been awarded official certification from the German Technical Control Board, TÜV Rheinland, in line with ISO 9001:2008. Quality control at the company, the international market leader for encapsulating solar modules, fulfilled all of TÜV Rheinland's criteria. The certification proves that Meier Solar Solutions GmbH has a quality assurance system capable of assuring customer satisfaction at a consistently high level.

“As always, we continue to guarantee our customers and partners the very highest standards in quality” said Meier Solar Solutions GmbH CEO Florian von Gropper. “This distinction proves yet again that we are on the right track with our work, our internal processes and our product quality, and that our company continues to stand for delivery reliability, efficiency and an innovative product portfolio”, he added.

Consistent quality control at Meier benefits the whole organisation. Most importantly, it inspires an even stronger customer focus. Customer demands are incorporated into a customer-orientated product design process, leading to increased customer satisfaction. Meier is now able to provide official confirmation of this.

**About Meier Solar Solutions GmbH**

Meier Solar Solutions GmbH, global market leader in laminators for encapsulating solar modules, was founded in 1999. With registered offices in Bocholt and Rossla, the company offers a comprehensive portfolio of solutions for the encapsulation of solar modules within fully automated assembly lines. This year, Meier Solar Solutions GmbH was able to consolidate its position as global market leader still further. The success of the new product portfolios allows the company to keep moving in the right direction. Meanwhile, every third solar panel produced around the world stems from a Meier laminator. With more than 280 systems, Meier Solar Solutions is now the biggest manufacturer of installed laminators in the world. This underlines the dominance of Meier laminators and confirms the success of the company right across the board.
