Press release 12/2010

## Meier Solar Solutions increases staffing levels and begins recruitment offensive

**Bocholt, 17 December 2010.** Meier Solar Solutions GmbH is ending the 2010 financial year with a recruitment offensive. Based in Bocholt, Germany, the leading manufacturer of laminators for encapsulating solar modules hired 15 new employees in December. “We have increased our staffing levels at both production sites in Bocholt (North Rhine-Westphalia) and Rossla (Saxony-Anhalt) in order to achieve our planned goals and cope with confirmed orders for next year,” stated Florian von Gropper, CEO of Meier Solar Solutions GmbH. “Further recruitment is planned for 2011,” continued von Gropper.

Besides production, staffing levels will increase both in mechanical and electrical engineering development as well as in the R&D department. Numerous confirmed orders – especially the second generation of the STACOLAM stacking laminating machine – have secured a strong upswing. “There have been lots of enquiries for our revised technologies which have been very well received by our customers,” commented Florian von Gropper. After a turbulent year, the future looks bright for Meier Solar Solutions GmbH.

### About Meier Solar Solutions GmbH

Since focussing its strengths on the solar industry in 1999, Meier Solar Solutions GmbH has become a global leader in laminators for encapsulating solar modules as a result of its innovation-led business strategy. Meanwhile, every third solar panel produced around the world stems from a Meier laminator. The company employs a total of 125 staff working in R&D, engineering development, customer support, electrical engineering, mechanical engineering, production, automation and software, marketing sales and administration at its

two production sites in Bocholt and Rossla. In addition, Meier Solar Solutions currently runs 10 international sales offices in major countries throughout the world, and the figure is steadily rising. Customer service is our utmost priority. With services ranging from the project stage to order processing and initial start-up, from training sessions to technical support, Meier Solar Solutions ensures that all its customers are able to work optimally using laminators manufactured by Meier Solar Solutions GmbH.
