

365 Orte im Land der Ideen

In Kooperation mit
Deutsche Bank

Press release 02/2011

Meier Solar Solutions is a prizewinner of the 2011 competition “365 Landmarks in the Land of Ideas” – awards ceremony on 9 September 2011

Bocholt, 23 February 2011, Meier Solar Solutions GmbH, global market leader for laminators for encapsulating solar modules based in Bocholt, Germany, has been named a “2011 Selected Landmark” in the competition “365 Landmarks in the Land of Ideas”, bestowed by the “Germany – Land of Ideas” initiative in partnership with Deutsche Bank.

Under the patronage of the German President Christian Wulff, the competition focuses on ideas and products that will shape the future of Germany. As a “2011 Selected Landmark”, Meier Solar Solutions GmbH is an ambassador for Germany – Land of Ideas, and represents the innovative potential of the country.

Meier Solar Solutions GmbH received the award for its innovative technologies concerning its STACOLAM stack laminator. The laminator consists of up to ten levels and achieves a capacity of up to 250 MW per year, making it the most efficient laminator in the world and represents the latest generation in laminating and encapsulating technology. The awards ceremony will take place on 9 September 2011 as part of the “MODULE EQUIPMENT SHOW 2011”, which will make Meier Solar Solutions GmbH, its ideas and technologies available for a wide public to experience in person.

About the 2011 “365 Landmarks in the Land of Ideas” competition

An expert jury comprising 20 scholars, business managers, journalists and politicians selected the 365 most exceptional examples of sustainability, courage, dedication and creativity from around 2,600 applications. The 365 prizewinners, including Meier Solar Solutions GmbH, now bear the title “2011 Selected Landmark”.

About Meier Solar Solutions GmbH

Since focussing its strengths on the solar industry in 1999, Meier Solar Solutions GmbH has become a global leader in laminators for encapsulating solar modules as a result of its innovation-led business strategy. Meanwhile, every third solar panel produced around the world stems from a Meier laminator. The company employs a total of 125 staff working in R&D, engineering development, customer support, electrical engineering, mechanical engineering, production, automation and software, marketing sales and administration at its two production sites in Bocholt and Rossla. In addition, Meier Solar Solutions currently runs 10 international sales offices in major countries throughout the world, and the figure is steadily rising. Customer service is our utmost priority. Meier Solar Solutions ensures that all its customers are able to work optimally using laminators manufactured by Meier Solar Solutions GmbH.
