Press release 08/2011

NPC Incorporated and Meier Solar Solutions host joint specialist conference and product show

- MODULE & EQUIPMENT SHOW 2011 in the Hanseatic city of Wesel on 9 September
- Full production line for PV modules in action

Wesel, 30 August 2011. Japan-based NPC Incorporated, leading manufacturer of machines for solar energy system production, and Meier Solar Solutions GmbH, market leader in laminators for encapsulating solar modules, will be hosting their first-ever joint specialist conference and product show, MODULE & EQUIPMENT SHOW, in the Hanseatic city of Wesel on 9 September 2011. The show represents an opportunity for the specialist audience to experience the two companies' innovations first-hand and observe the full production line for PV modules in action. To round off the event, Dr Stefan Schulze from the Fraunhofer Center for Silicon Photovoltaics in Halle will be giving a lecture on "material characteristics and how they affect laminate and module quality".

At the conference, Hartwig Langfeld from Deutsche Bank will be presenting Meier Solar Solutions GmbH with the award "Selected Landmark" in the Land of Ideas for its photovoltaic laminator, making Meier Solar Solutions one of the 365 companies to be recognised by the "Germany – Land of Ideas" initiative in collaboration with Deutsche Bank and under the patronage of the German President.

MEIER SOLAR SOLUTIONS

About NPC

Established in 1992, the NPC Group manufactures and distributes vacuum packaging machines. Over the years, the company has further developed and adapted its core area of expertise, vacuum technology, making it one of the leading manufacturers of machines for solar energy system production. The company's European headquarters are located in Cologne.

About Meier Solar Solutions

Thanks to its innovation-led business strategy, Meier Solar Solutions GmbH has become a global leader in laminators for encapsulating solar modules since focussing its strengths on the solar industry in 1999. Meanwhile, every third solar panel produced around the world stems from a Meier laminator. The company employs a total of 125 staff at its two production sites in Bocholt and Rossla.
