Laminator from Meier is the first laminator worldwide to receive German TÜV certification

Bocholt, 2nd June 2009. The ICOLAM from Meier Solar Solutions is the first laminator in the world to receive German certification from the Technical Inspection Authority (TÜV). TÜV (Süd) tested the ICOLAM for machine safety and operational safety, as well as compliance with safety targets.

'With the TÜV certification for our ICOLAM, Meier Solar Solutions has gained yet another competitive edge. We can now guarantee approved safety for our customers and their operators when using our laminators, which no other competitor so far is able to offer', stated Florian von Gropper, CEO of Meier Solar Solutions GmbH.

About Meier Solar Solutions GmbH

Meier Solar Solutions GmbH, a global market leader in laminators for encapsulating solar modules, was founded in 1999 as part of the Meier Group and offers an extensive range of solutions for encapsulating solar modules using fully automated production lines. The company with offices in Bocholt and Rossla provides employment for a staff of around 140.
